**DenMOS Technology and ChipMOS Taiwan Jointly Announce
Signing Assembly and Testing Agreement**

Hsinchu, Taiwan, Oct. 22, 2003—DenMOS Technology Inc. (“DenMOS”) and ChipMOS TECHNOLOGIES INC. (“ChipMOS”), the 70% subsidiary owned by ChipMOS TECHNOLOGIES (Bermuda) LTD. (Nasdaq: IMOS) (“ChipMOS Bermuda”), today jointly announced the signing of an agreement to guarantee the future capacity supply of LCD driver IC assembly and testing services to DenMOS for the next three years.

Through this agreement, ChipMOS guarantees to provide assembly and testing services to DenMOS for their LCD driver IC products and DenMOS also promises to gradually increase monthly order to the amount of eight million units in coming three years. ChipMOS agrees to prepare sufficient capacity to DenMOS, including expanding its capacity, according to the agreement. In other words, DenMOS guarantees to fully utilize the capacity reserved by ChipMOS.

Masatoshi Oshima, president of DenMOS, said, “DenMOS chooses ChipMOS, the number one LCD driver IC assembly and testing services provider in Taiwan, to be its partner, since its stable capacity supply and excellent quality control. DenMOS could thus focus most of its resources on LCD driver IC design with the sufficient capacity supply from ChipMOS in the next three years.”

S.J. Cheng, deputy chairman and chief executive officer of ChipMOS Bermuda, said, “ChipMOS forms an alliance with DenMOS in LCD driver IC related business by a mutually beneficial way. We intend to become DenMOS’s best support and help strengthening its product vertical integration via this close relationship. DenMOS is one of the global leading fabless on LCD related devices. We are glad to have a long-term partnership with them. Through this agreement, DenMOS would have stable supply of LCD driver IC assembly and testing services from ChipMOS in the coming three years. It is always our strategy to provide assembly and testing service support continuously to our customers for keeping them competitive in the market.”

About DenMOS Techonology Inc.

DenMOS Technology was founded in 2001 in Hsinchu Science Park, with a joint venture of Mosel Vitelic and Sharp. It is a well-known fabless specializing in design, manufacture, and sale of both TFT-LCD and STN-LCD driver ICs, like Source Driver IC and Gate Driver IC. DenMOS is capable to provide vertical integration supply chain service of LCD driver ICs. For more information, please visit its company website at <http://www.denmos.com.tw>

About ChipMOS TECHNOLOGIES (Bermuda) LTD.

ChipMOS/Bermuda is a leading provider of semiconductor testing and assembly services to customers in Taiwan, Japan and the U.S. With advanced facilities in Taiwan and Shanghai, ChipMOS/Bermuda and its subsidiaries provide testing and assembly services to a broad range of customers, including leading fabless semiconductor companies, integrated device manufacturers and independent semiconductor foundries.
