In addition, the underwriters also exercised an option to purchase an additional 300,000 shares from ThaiLin on November 1, 2012. Siliconware Precision continues to own approximately 2.2 million of the Company’s common shares and ThaiLin continues to own approximately 4.5 million of the Company’s common shares.

S.J. Cheng, Chairman and Chief Executive Officer of ChipMOS, said, “We expect to continue to successfully execute on all fronts to drive near term financial performance gains and structural changes that we believe are essential to our long-term success. Net revenue in 3Q12 increased 15.2% over 3Q11 and was up 6.4% from 2Q12. From a product mix standpoint we benefitted from higher revenue from our LCD driver, mixed signal and mask ROM memory businesses. Our overall utilization rate increased to 80% from 78% in 2Q12, and 73% in 1Q12. In addition, depreciation and amortization expenses were US\$5.9 million lower in 3Q12 than in 2Q12. As a result of the above, we were able to drive a further improvement in gross margin to 18.6% in 3Q12 from 12.8% 2Q12 and 6.2% in 1Q12. Finally, we took another important step forward in the dual listing process and in our efforts to streamline the Company’s corporate capital structure with the successful closure of a secondary offering on November 1, 2012. We anticipate moving into the fourth quarter with considerable momentum in our business, which gives us added confidence in our business strategy and prospects.”

S.K. Chen, Chief Financial Officer of ChipMOS, said, “Our revenue growth, profitability and operating expenses in 3Q12 were all in-line with expectations. Capital expenditures in the third quarter were US\$19.6 million, bringing our year-to-date CapEx total to US\$74.6 million, in-line with the plan we outlined at the start of the year. Depreciation and amortization expenses in 3Q12 came in at US\$37.2 million, a US\$5.9 million reduction compared to 2Q12. We expect a further reduction in depreciation and amortization expenses in 4Q12 to approximately US\$34.0 million. Our balance sheet continued to improve as we generated free cash flow of US\$33.1 million in 3Q12. We exited the third quarter with a balance of cash and cash equivalents of US\$257.3 million. The US\$10 million previously authorized share repurchase plan was completed on October 12, 2012, with approximately 654 thousand common shares repurchased, and subsequently cancelled. While we have not immediately extended the repurchase program, our Board of Directors continues to monitor the situation as part of our efforts to increase shareholder value.”

Fourth Quarter 2012 Outlook

The Company expects 4Q12 revenue to be approximately flat to 5% lower, as compared to 3Q12, reflecting further softness in the broader memory market, which impacts the Company's commodity DRAM assembly business, offset by continued growth in its LCD driver and mixed-signal businesses. The Company expects 4Q12 gross margin on a consolidated basis to be in the range of approximately 14% to 19%. We anticipate depreciation and amortization expenses for 4Q12 to be approximately US\$34 million. The Company projects CapEx spending to be approximately US\$21 million in 4Q12. We expect operating expenses to be approximately 6% to 7% of revenues in 4Q12. Common shares at the end of 4Q12 are expected to be approximately 29 million.
