**ChipMOS REPORTS THIRD QUARTER 2009 RESULTS**

**Hsinchu, Taiwan, November 10, 2009** – ChipMOS TECHNOLOGIES (Bermuda) LTD. (“ChipMOS” or the “Company”) (NASDAQ: IMOS) today reported unaudited consolidated financial results for the third quarter ended September 30, 2009. All U.S. dollar figures in this release are based on the exchange rate of NT\$32.03 against US\$1.00 as of September 30, 2009.

Net revenue on a US GAAP basis for the third quarter of 2009 was NT\$3,347.1 million or US\$104.5 million, an increase of 14.1% from NT\$2,932.7 million or US\$91.6 million in the second quarter of 2009 and a decrease of 23.3% from NT\$4,361.5 million or US\$136.2 million for the same period in 2008. This is at the high-end of the Company’s upwardly revised guidance for Q3 2009 revenue growth of 13% to 15% compared to Q2 2009, as provided on October 2, 2009.

Net loss attributable to ChipMOS on a US GAAP basis for the third quarter of 2009 was NT\$1,075.6 million or US\$33.6 million, and NT\$13.81 or US\$0.43 per basic common share, compared to net loss attributable to ChipMOS of NT\$1,208.2 million or US\$37.7 million, and NT\$15.46 or US\$0.48 per basic common share, for the second quarter of 2009. Net loss attributable to ChipMOS under US GAAP includes amortization of discount on convertible notes of NT\$26.3 million or US\$0.8 million for the third quarter of 2009 and amortization of discount on convertible notes of NT\$26.3 million or US\$0.8 million for the second quarter of 2009. Excluding the above special items regarding the convertible notes, non-GAAP adjusted net loss attributable to ChipMOS for the third quarter of 2009 was NT\$1,049.3 million or US\$32.8 million, and NT\$13.47 or US\$0.42 per basic common share, compared to non-GAAP adjusted net loss attributable to ChipMOS of NT\$1,181.9 million or US\$36.9 million, and NT\$15.13 or US\$0.47 per basic common share in the second quarter of 2009.

The unaudited consolidated financial results of ChipMOS for the third quarter ended September 30, 2009 included the financial results of ChipMOS TECHNOLOGIES INC., ChipMOS Japan Inc., ChipMOS U.S.A., Inc., ChipMOS TECHNOLOGIES (H.K.) Limited, MODERN MIND TECHNOLOGY LIMITED and its wholly-owned subsidiary ChipMOS TECHNOLOGIES (Shanghai) LTD., and ThaiLin Semiconductor Corp.

S.J. Cheng, Chairman and Chief Executive Officer of ChipMOS, said, “Results came in at the high-end of our upwardly revised guidance as we benefitted from both improved pricing in our LCD driver business and strong demand in our DRAM, LCD driver, and mixed-signal/logic businesses. The DRAM industry solidified its recovery in the third quarter, a full quarter behind the broader semiconductor sector, with both commodity and niche markets benefiting from strong market demand. As a result, our DRAM revenue was up 37% in the third quarter compared to the second quarter. Overall, we remain on track for continued improvements and remain focused on strict cost controls. Importantly, we continue to provide the excellent service and support customers rely on ChipMOS for worldwide, along with providing our customers with cost effective solutions. For example, in the third quarter, we successfully released a new proprietary copper wire manufacturing technology into mass production. This technology advance gives customers performance yields equal to the traditional gold wire process, with a 20 percent wire cost reduction. Given the considerable cost savings, we expect the process to gain traction with our major logic and memory customers going forward.”

S.K. Chen, Chief Financial Officer of ChipMOS, said, “We achieved a further improvement in our gross margin due to an increase in the capacity utilization rates for final test, assembly, and LCD driver manufacturing, combined with an ASP recovery in our LCD driver business. We are targeting additional improvement in the fourth quarter. We are also encouraged with our further progress in strengthening our financial position. Last week we announced the closing of privately negotiated transactions with two investors holding in aggregate US\$54 million of the Company’s 1.75% convertible senior notes due 2009 and the repayment at maturity of the remaining outstanding 2009 senior notes. We also recently completed a major restructuring of our Master Lease Agreement with GE. These are additional important steps for ChipMOS and build on agreements announced on April 15, 2009 that extended key repayment terms and conditions of the Company’s bank loans from Taiwan Creditors.”

## Fourth Quarter 2009 Outlook

Mr. Cheng continued, "Looking to the fourth quarter, we currently expect total revenue to be flat to having growth in the single digit percentage, as compared to the third quarter, as we forecast a balanced business uptick offset by seasonality in our driver IC and flash businesses. This forecast reflects the overall market situation and customer forecasts. Overall, we have accomplished a great deal in 2009 with our new business efforts at existing and new customers, our financial restructuring, cost reduction program, technology developments and targeted international expansion. We are highly encouraged with our progress and optimistic about the Company's future. We expect our efforts to lead to continued improvements in our business and the Company's financial strength moving forward."

**Use of Non-GAAP Financial Information**

To supplement our consolidated income statement (unaudited) for the three months ended Sep. 30, 2009 on a US GAAP basis, the Company uses a non-GAAP measure of net income (loss) attributable to ChipMOS, which is US GAAP net income (loss) attributable to ChipMOS adjusted to exclude two non-cash items referred to as special items. The two non-cash items excluded are changes in the fair value of the embedded derivative liabilities and amortization of discount on convertible notes. These items are considered by the management to be outside of the Company's core operating results. For example, changes in the fair value of the embedded derivative liabilities relate heavily to the Company's stock price, interest rate and volatility, all of which are difficult to predict and outside of the control of the Company and its management.

For these reasons, management uses non-GAAP adjusted measures of net income (loss) attributable to ChipMOS and non-GAAP earnings (loss) per share attributable to ChipMOS to evaluate the performance of our core businesses and to estimate future core performance. In addition, this information facilitates our management's internal comparisons to our historical operating results as well as to the operating results of our competitors.

The Company's management finds these supplemental non-GAAP measures to be useful, and we believe these non-GAAP measures are useful to investors in enabling them to perform additional analyses of past, present and future operating performance and as a supplemental means to evaluate our core operating results. However, readers are reminded that non-GAAP numbers are merely a supplement to, and not a replacement for, US GAAP financial measures. They should be read in conjunction with the US GAAP financial measures. It should be noted as well that our non-GAAP information may be different from the non-GAAP information provided by other companies.
