Company's statement no meaningful impact from earthquake occurred on April 3, 2024

ChipMOS today announced that the recent 7.2 magnitude earthquake recorded off the coast of Hualien, Taiwan in the early hours of April 3rd, 2024 had no material impact on ChipMOS's operations. All personnel are safe at ChipMOS facilities. Immediately after the earthquake occurred, the company initiated preventive measures to inspect and restore the plants and equipment one by one. At present, the production lines have resumed normal operations and any production line being the schedule could be made up in the future. Since the Company maintains insurance policies, and the insurance amount is sufficient to cover any losses. It is expected the earthquake losses will not have meaningful impact on the Company's overall finances and business operation.
