PROXY STATEMENT

ANNUAL GENERAL MEETING OF SHAREHOLDERS

August 29, 2014

INTRODUCTION

This Proxy Statement is furnished in connection with a solicitation of proxies by the Board of Directors of ChipMOS TECHNOLOGIES (Bermuda) LTD., a company incorporated under the laws of Bermuda (the “**Company**”), to be used at the 2014 Annual General Meeting of Shareholders of the Company (the “**Annual General Meeting**”) to be held at No. 1, R&D Road 1, Hsinchu Science Park, Hsinchu, Taiwan, Republic of China, on August 29, 2014, at 10:00 a.m., Taipei time, and at any adjournments or postponements of the Annual General Meeting. The notice card (the “**Notice Card**”) with instruction for submitting proxies for voting at the Annual General Meeting is first being sent to shareholders on or about July 15, 2014.

The Board of Directors has established June 30, 2014 (the “**Record Date**”) as the date used to determine those record holders and beneficial owners of the Company’s common shares, par value US\$0.04 per share (the “**Common Shares**”) to whom the Notice Card will be sent. On the Record Date, there were 29,831,191 Common Shares issued and outstanding.

If you properly cast your vote by following the appropriate procedures set forth in your Notice Card for submitting your proxy by internet or by executing and returning the proxy card by mail, and your proxy is not subsequently revoked, your vote will be voted in accordance with your instructions. If you submit your proxy by internet or execute and return the proxy card by mail, but do not give instructions as to how to vote, your proxy will be voted “FOR” each proposal described in this Proxy Statement and otherwise in accordance with the judgment of the person or persons voting the proxy on any other matter properly brought before the Annual General Meeting.

A shareholder may revoke an executed proxy before it is exercised by giving written notice revoking the proxy to the Secretary of the Company, by subsequently filing another proxy bearing a later date or by attending the Annual General Meeting and voting in person. A vote cast in accordance with the instructions of a proxy shall be valid notwithstanding (i) the death or unsoundness of mind, subsequent to the execution of the proxy but prior to the Annual General Meeting, of the shareholder who executes the proxy, or (ii) revocation of the proxy, if no written instrument setting forth such death, insanity or revocation shall have been received by the Company at its office as specified in the Notice Card no later than one hour prior to the commencement of the Annual General Meeting or any adjournments or postponements of the Annual General Meeting. Attending the Annual General Meeting in person without further action such as voting in person or withdraw proxy in person will not automatically revoke your proxy.

Quorum and Voting Requirements

Two shareholders present in person or by proxy and holding Common Shares representing in the aggregate at least 50% of the total voting rights of all shareholders that have the right to vote at the Annual General Meeting and are entitled to vote, will constitute a quorum for the transaction of business at the Annual General Meeting.

The affirmative vote of the holders of a majority of the outstanding Common Shares present in person or by proxy and entitled to vote at the Annual General Meeting is required to approve all proposals.

When an eligible voter attends the meeting but decides not to vote, his or her decision not to vote is called an “abstention.” Properly executed proxy cards that are marked “**abstain**” on any proposal will be treated as abstentions for that proposal. Broker non-votes occur when shares held by a broker for a beneficial owner are not voted with respect to a particular proposal because (i) the broker does not receive voting instructions from the beneficial owner, and (ii) the broker lacks discretionary authority to vote the shares. Abstentions and broker non-votes will not be treated as votes cast, and therefore neither abstentions nor broker non-votes will impact the outcome of this proposal.

Computershare Inc. will tabulate votes cast by proxy either by internet or by mail for the Annual General Meeting and a representative of Computershare Inc. will tabulate votes cast in person at the Annual General Meeting.

Expenses of Solicitation

The Company will pay the expenses of the preparation of proxy materials and the solicitation of proxies for the Annual General Meeting. In addition to the solicitation of proxies by mail, solicitation may be made by certain directors, officers or employees of the Company or its affiliates telephonically, electronically or by other means of communication. Directors, officers and employees will receive no additional compensation for such solicitation. The Company will reimburse brokers and other nominees for costs incurred by them in mailing proxy materials to beneficial holders in accordance with applicable rules.

Dear Shareholders,

2013 was a transformative year for ChipMOS in every sense. We have been working extremely hard to diversify our customer mix, to further strengthen our balance sheet and to ultimately build shareholder value. These are complex, longer-term efforts – all important to the further enhancing the Company's market position and to ensuring sustained success.

I am excited and proud to report to you today that our hard work paid off for both ChipMOS and our shareholders. Our 2013 financial results were impressive and serve to validate our business strategy. Importantly, we delivered a share price gain over 100 percent for the year! We certainly do not measure our success by the stock price alone but it was a nice achievement given our team's tireless efforts and given the patience and support of the Company's shareholders.

As one example, we took another major step forward by listing our majority owned Taiwan subsidiary, ChipMOS Taiwan, on the Taiwan Stock Exchange ("TWSE"). This is an excellent strategic opportunity to better realize the inherent value of our Company based on valuations of similar companies in our sector. On April 11, 2014, shares of ChipMOS Taiwan commenced trading on the TWSE under stock code "8150". This was significant as it allowed us to begin actively building our local brand and developing relationships with investors and key financial analysts in the attractive local Taiwan market. As part of the TWSE listing process, we reduced the Company's ownership of ChipMOS Taiwan to 62.1% in Q4 2013 from 83.5% in early Q3 2013. The planned ownership reduction was part of our efforts to enable ChipMOS Taiwan to meet eligibility requirements for listing its shares on the TWSE. As we gain even broader awareness of ChipMOS and the exciting opportunities ahead of us, we expect the Company and our shareholders to see further benefits.

In terms of specific results, net revenue for the full year 2013 was US\$649.1 million, with a gross margin increased to 17.8%, and net income of US\$44.8 million or US\$1.48 per diluted share.

Our business strength was directly seen in our fortified balance sheet. We ended 2013 with a cash and cash equivalents balance of US\$448.3 million, having generated over US\$208.6 million in cash from operations during 2013 and having ended the year with a positive net cash balance of US\$195.1 million. This improved financial health allows us to support initiatives designed to drive increased value for our shareholders, including our dividend and repurchase programs, and the above mentioned listing of our majority owned Taiwan subsidiary on the TWSE. Our financial strength also gives us a major advantage as we pursue growth opportunities and work to support existing customer capacity needs and roadmaps.

We continue to execute on higher margin opportunities, including our leading position in the LCD driver assembly and test market. In 2013, revenue from these higher margin opportunities, like testing and assembly services provided to semiconductor customers in the LCD driver segment, was up 9.8% and was up 27.1% in the bumping segment, as compared to 2012, respectively. The fundamentals of the LCD market remain strong with appropriate capacity, stable pricing, healthy unit demand and multiple catalysts for growth.

We also benefited from the growth in our niche DRAM and flash businesses. The movement from PCs into higher growth segments, led by tablets and smartphones, became the main market demand on our product services. For ChipMOS, these positive trends reinforce our business strategy and CapEx roadmap. We are positioned to benefit from both improved pricing and potential increased volumes for commodity DRAM, NAND/NOR flash and mobile DRAM at the memory customers we work with. Capacity rationalization across the industry has led to price stabilization and further improved the market's health.

As a result of higher demand levels, we adjusted our CapEx roadmap in the second half of 2013. Qualified demand rose to the level that we needed to add capacity 6 months earlier than planned, from 2014 into 2013, in support of growth opportunities in our higher margin LCD driver business. One of these opportunities, 4K/2K TVs (also known as "UHD TVs"), requires significantly more driver ICs, and therefore, capacity. Importantly, based on our current operating budget, CapEx for the full year 2014 is currently expected to be less than US\$80 million compared to US\$121.5 million for 2013.

Overall, we are excited about the progress we achieved in 2013. We continued to execute on higher margin opportunities, including our leading position in the LCD driver assembly and test market. We also expect to benefit from increased outsourcing at both existing and new customers we are targeting. We continue to grow by increasing share with the leading DRAM companies, while maintaining a disciplined CapEx approach. We accomplished a great amount in 2013 and are optimistic about 2014, as we continue to strive for improvements in business fundamentals and capacity enhancements needed to secure our long-term success.

We are optimistic about the future for ChipMOS given the Company's solid business prospects. We expect to see continued momentum in 2014 and started the year off with sequential revenue growth in the first quarter 2014 compared to the fourth quarter 2013, even though Q1 is normally seasonally lower. We fully expect to build on this momentum as we leverage the Company's excellent financial position to capture new business opportunities, while we remain committed to carefully managing our balance sheet moving forward. We also plan to evaluate and pursue potential additional opportunities, where they may exist, to further streamline our corporate structure to the benefit of our Company and all shareholders. We look forward to continuing to share our progress and success with you as we move through 2014.

On behalf of the Board of Directors, we would like to extend our sincere appreciation to our shareholders, employees, customers and business associates for their continued support over the years.

Sincerely,

/S/ Shih-Jye Cheng
