Set forth below is the report of the Audit Committee delivered with respect to the financial statements of the Company for the year ended December 31, 2004.

ChipMOS TECHNOLOGIES (Bermuda) LTD.
AUDIT COMMITTEE REPORT

The role of the Audit Committee is to assist the Board of Directors in its oversight of (i) the Company's accounting and financial reporting principles and policies, internal audit controls and procedures and compliance with legal and regulatory requirements; (ii) the integrity of the Company's financial statements and the independent audit thereof; and (iii) the external auditors, including evaluating the qualifications, independence and performance of and, where deemed appropriate, the replacement of the external auditors. The function of the Audit Committee is oversight. The management of the Company is responsible for the preparation, presentation and integrity of the Company's financial statements and for the effectiveness of internal control over financial reporting. Management and the internal auditing department are responsible for maintaining appropriate accounting and financial reporting principles and policies and internal controls and procedures designed to assure compliance with accounting standards and applicable laws and regulations. The external auditors are responsible for planning and carrying out a proper audit of the Company's annual financial statements, reviewing, if requested, the Company's interim financial statements, annually auditing management's assessment of the effectiveness of internal control over financial reporting (commencing in the fiscal year ending after July 15, 2006), and other procedures. In fulfilling their responsibilities hereunder, it is recognized that members of the Audit Committee are not full-time employees of the Company and are not, and do not represent themselves to be, accountants or auditors by profession or experts in the fields of accounting or auditing including in respect of auditor independence.

In the performance of its oversight function, the Committee has considered and discussed the audited financial statements with management and the external auditors. The Committee has also discussed with the external auditors the matters required to be discussed by Statement on Auditing Standards No. 61, Communication with Audit Committees, as currently in effect. Finally, the Committee has received the written statement from the external auditors required by Independence Standards Board Standard No. 1, Independence Discussions with Audit Committees, as currently in effect, and confirmations from management with respect to non-audit services provided by the auditors, has considered whether the provision of non-audit services by the external auditors to the Company is compatible with maintaining the auditor's independence and has discussed with the auditors the auditors' independence.

The members of the Audit Committee are not professionally engaged in the practice of auditing or accounting and are not experts in the fields of accounting or auditing, including in respect of auditor independence. Members of the Committee rely without independent verification on the information provided to them and on the representations made by management and the external auditors. Accordingly, the Audit Committee's oversight does not provide an independent basis to determine that management has maintained appropriate accounting and financial reporting principles or appropriate internal control and procedures designed to assure compliance with accounting standards and applicable laws and regulations. Furthermore, the Audit Committee's considerations and discussions referred to above do not assure that the audit of the Company's financial statements has been carried out in accordance with generally accepted auditing standards, that the financial statements are presented in accordance with generally accepted accounting principles or that the Company's auditors are in fact "independent".

Based upon the reports and discussions described in this report, and subject to the limitations on the role and responsibilities of the Committee referred to above and in the Charter, the Committee recommended to the Board that the audited financial statements be included in the Company's Annual Report on Form 20-F for the year ended December 31, 2004 to be filed with the Securities and Exchange Commission.

Letter to Our Shareholders

Dear Shareholders,

The year 2004 was marked by great achievements in our operations and business. We are now in a better financial position than we were a year ago and are very pleased with our progress given the difficult operating environment facing the semiconductor industry in the latter half of 2004. In 2004, we successfully completed two financings, raising a total of approximately US\$115 million. We also closed an important acquisition of the testing and assembly assets from First International Computer Testing and Assembly Technology, Inc., a significant portion of which we have installed to support the anticipated increases in customer demand in 2005.

2004: A Year of Progress

From an operations standpoint, we are pleased with our fiscal 2004 financial results. Our strong gross margin of 28% for the year was primarily due to higher sales volume and our ability to benefit from economies of scale as we expanded our production. Our results for the year were partially offset by the effect of consolidating the financial results of CHANTEK ELECTRONIC CO., LTD. (“Chantek”), a subsidiary of ChipMOS TECHNOLOGIES INC. (“ChipMOS Taiwan”). We also continued to make excellent progress at our facility in mainland China. In the first quarter of 2005, we received written approval from the Shanghai government for an extension of our remaining investment obligation of US\$157.5 million for this facility to the end of 2007. This is a positive development for us because it will allow us to more closely match our investments with anticipated increases in customer orders.

We recorded total net revenue of US\$473.7 million and net income of US\$52.8 million in 2004.

2005: Outlook

We remain cautiously optimistic for fiscal year 2005 based on our business fundamentals, current market conditions, improved inventory levels and anticipated customer programs. We currently expect that our low cost production model and focused DRAM and liquid crystal display (“LCD”) driver businesses will continue to allow us to maintain growth and profitability above the industry average.

To meet increased demand for our services in mainland China, especially for the LCD driver semiconductor, we expect our new Shanghai facility to be completed and begin operations in the fourth quarter of 2005. This facility demonstrates our intention to be prepared for future growth in this important emerging market.

On behalf of the Board of Directors, we would like to extend our sincere appreciation to our shareholders, employees, customers and business associates for their continued support over the year.

Sincerely

Shih-Jye Cheng
Chairman
