ChipMOS FILES PATENT INFRINGEMENT SUIT AGAINST WALTON CHAINTECH CORPORATION

Hsinchu, Taiwan, September 12, 2007 – ChipMOS TECHNOLOGIES (Bermuda) LTD. (“ChipMOS” or the “Company”) (Nasdaq: IMOS) announced today that its 99.14% owned subsidiary, ChipMOS TECHNOLOGIES INC. (“ChipMOS Taiwan”) filed a lawsuit on September 12, 2007 Taiwan time in Taiwan Banciao District Court against Walton Chaintech Corporation (“Walton Chaintech”), alleging infringement by Walton Chaintech of two of ChipMOS Taiwan’s BGA (Ball Grid Array) package related patents which are used for DDR II SDRAM devices.

ChipMOS Taiwan obtained from the retail market several “APOGEE” branded memory modules manufactured by Walton Chaintech and sent them to a professional appraisal institution for investigation. ChipMOS Taiwan decided to file the litigation based upon the investigating report of this professional appraisal institution, which concluded that the package device employed on the aforementioned modules infringed ChipMOS Taiwan R.O.C. patent no. 207627 “Substrate on Chip Packaging Process” and patent no. 207525 “Substrate on Chip Packaging Process”.

ChipMOS highly values intellectual property and recognizes its responsibility to protect its patents and the benefits of its shareholders, and to seek a fair return on its efforts in R&D activities. ChipMOS Taiwan decided to file the patent infringement lawsuit against Walton Chaintech, seeking NT\$15 million in monetary damages at the initial stage for the losses ChipMOS Taiwan suffered as well as a court order prohibiting Walton Chaintech from using the allegedly infringing technology.
