Net earnings for the fiscal year ended December 31, 2018 were US\$0.90 per basic ADS, compared to US\$2.34 per basic ADS for the fiscal year ended December 31, 2017 reflects the benefit of the Company's sale and transfer of 54.98% equity interests off a former wholly-owned subsidiary to Tsinghua Unigroup led strategic investors.

S.J. Cheng, Chairman and President of ChipMOS, said, "2018 was marked by significant accomplishments, including the completion of our capital reduction and the expansion of our higher margin TDDI business. We exited the year with our gross margin at 22.8% in Q4 up from 19.5% in Q3, and gross margin also up on a full year basis in 2018 compared to 2017. We achieved this improvement on modest revenue growth, as we benefitted from stable utilization and pricing levels combined with the benefit of ongoing operating efficiency improvements. This helped us to offset headwinds impacting the entire industry in the Niche DRAM business. While uncertainty remains around the

trade tensions and the overall macroeconomic environment, ChipMOS is in a strong position entering 2019 having completed our capital reduction, fortified our balance sheet and secured long-term financing agreements on favorable terms from our banking partners. We are focused on achieving profitable annual revenue growth in 2019. We are confident we will be able to achieve our goals as we benefit from healthy demand in our COF business, led by stable demand from 4K TV customers and demand created by new smartphone models featuring bezel-less panels."

Silvia Su, Vice President of Finance and Accounting, commented, "We are encouraged with our improved financial position exiting Q4, which enables us to fully support existing customer programs, while having the capacity to support new growth opportunities, including those in our DDIC business. Revenue for the full year 2018 increased 3.0%, with net earnings of US\$0.90 per basic ADS or net earnings of US\$0.04 per basic common share. We generated US\$134.9 million cash from operations in 2018, ending 2018 with a cash and cash equivalents balance of US\$151.7 million. This is after we distributed a cash dividend of US\$8.4 million and capital reduction of US\$42.0 million to shareholders; and invested US\$161.6 million in CapEx. We continue to take a conservative approach to our CapEx plan as we invest based on customer forecasts and demand trends. We remain focused on leveraging ChipMOS's technical expertise, geographic footprint and financial strength to build further shareholder value."
