On matter (2), the Board resolved to sell 9.1 million common shares of JMC. The resolution was made to allow ChipMOS to realize an investment gain, which the Company plans to use to further strengthen its financial structure, while increasing its balance of working capital and decreasing its debt ratio. The 9.1 million common shares of JMC are expected to be sold on the public market in the period from April 2 to September 30, 2019. Based on the NT\$142 per share closing price of JMC's stock on April 1, 2019, total proceeds are estimated to be approximately NT\$1,292,200 thousand (approximately US\$41.87 million), with the disposal gain estimated to be approximately NT\$1,091,090 thousand (approximately US\$35.36 million). After the sale, the Company will continue to own 10 million common shares of JMC, representing 10.0% of the total shares outstanding, with the carrying amount of the remaining investment expected to be approximately NT\$220,327 thousand (approximately US\$7.14 million). The Company cautions that all amounts cited are estimates based on the closing price of JMC's stock price on April 1, 2019 with the actual proceeds and disposal gain to be determined by the actual sale price of the shares. The period of disposal is also an estimate to be determined by the actual sales.
