DIVIDEND ALERT: ChipMOS ADS HOLDERS TO RECEIVE APPROXIMATELY US\$1.027 PER ADS; DISTRIBUTION DATE ON DECEMBER 27, 2016

HSINCHU, Taiwan, Dec. 20, 2016 /PRNewswire-FirstCall/ -- ChipMOS TECHNOLOGIES INC. (TWSE: [8150](#); NASDAQ: IMOS; "ChipMOS") announced today that ADS holders will receive approximately US\$1.027 per ADS, net of the Taiwan withholding tax and depositary fees, on December 27, 2016. The cash dividend was approved by the shareholders of ChipMOS at the meeting on May 31, 2016 and a portion of which is payable to the ChipMOS common shares underlying the ChipMOS American depositary shares ("ADSs").

S.J. Cheng, Chairman of ChipMOS, commented, "We are pleased to reward our shareholders with this dividend distribution. Our business remains fully on track to outgrow the broader semiconductor industry, as we achieve increased loadings in our LCD, AMOLED, OLED driver ICs, touch driver, memory testing, assembly and bumping services. Importantly, we continue to execute on the long-term initiatives - including our recently announced joint venture with Tsinghua Unigroup - which we expect will give ChipMOS an even stronger competitive advantage."

ChipMOS previously announced, as reported in its Form 6-K filed on November 10, 2016, with the United States Securities and Exchange Commission ("U.S. SEC"), that the Board set the ex-dividend record date for this dividend as December 3, 2016, with the book closure period from November 29 to December 3, 2016 in accordance with Article 165 of Taiwan's Company Act. The ADS record date for this dividend was November 29, 2016.

Holders of ADSs in brokerage accounts are encouraged to check with their securities brokers for receipt of dividend payments. Questions regarding dividend payments to ADS holders may be directed to Keith Balwan at Citibank, N.A. (Tel: 1-973-461-7038; email: keith.balwan@citi.com).

About ChipMOS TECHNOLOGIES INC.:

ChipMOS TECHNOLOGIES INC. ("ChipMOS" or the "Company") (Taiwan Stock Exchange: [8150](#) and NASDAQ: IMOS) (<http://www.chipmos.com>) is an industry leading provider of semiconductor assembly and test services.
